Dear Ms. Wall:

Thank you for your letter of March 24, bringing me up-to-date on the progress you have made with your program.

I hope you are able to find the additional resources to carry out all segments of your program. You can count on my support and if I can find some way to help, please be assured that I will do all that is possible.

I hope we will stay in touch so that we might cooperate in making your valuable service available to the youth of our community.

Sincerely yours,
